Overview:

Microsoft 2021 Professional Plus is the leading business suite worldwide. In this new version of Office 2021, all of the programs have been updated with more powerful features and better cloud integration, making it easier for you to accomplish more in less time. Word 2021, Excel 2021, PowerPoint 2021, Access 2021, Publisher 2021, and Outlook 2021 are all here in Office 2021. Take your documents and presentations to the next level. With Microsoft Office 2021 Professional Plus, you get everything you need for business. This major upgrade of Office has new features in every application. These new features enhance productivity, help you better analyze your data, and stay on top of the game in today's fast-paced work environment.

Here are the most important new features of Office Professional Plus 2021

Word:

OpenDocument format (ODF) 1.3 support
Updated Draw tab
Performance improvements

Excel:

XLOOKUP function – helps find things in a table or range by row in an Excel worksheet.
Dynamic array support – new functions in Excel that use dynamic arrays.
LET function – an Excel feature that lets you assign names to calculation results.
XMATCH function – this searches for a specified item in an array or range of cells and returns the item's relative position.
OpenDocument format (ODF) 1.3 support
Updated Draw tab
Performance improvements

PowerPoint:

Record Slide Show – this new PowerPoint feature includes presenter video recording, ink recording, and laser pointer recording.
Replay your ink strokes – if you're using ink in PowerPoint, you can now replay illustrations as they were drawn.
Arrange elements on your slides for screen readers – this lets you re-arrange elements to optimize them for screen readers.
OpenDocument format (ODF) 1.3 support
Updated Draw tab
Performance improvements

Can people with an earlier version of office open documents I created using Microsoft365 or office 2021?

Microsoft 365, Office 2021, Office 2019, Office 2016, Office 2013, Office 2010, Office 2007, Office for Mac 2011, and Office for Mac 2008 applications can open your documents without any additional action. Customers using earlier versions of Office may need to download and install a compatibility pack.

What is the different between Microsoft365 subscription plans and Office as a one-time purchase?

Microsoft 365 is a subscription that comes with premium apps like Word, Excel, PowerPoint, OneNote, Outlook, Publisher, and Access (Publisher and Access available on PC only). The apps can be installed on multiple devices, including PCs, Macs, iPads, iPhones, Android tablets, and Android phones. Microsoft 365 also comes with services like 1 TB of OneDrive storage, 60 Skype minutes per month, and Microsoft chat and phone support. With a subscription, you get the latest versions of the apps and automatically receive updates when they happen.

Office 2021 is a one-time purchase that comes with classic apps like Word, Excel, and PowerPoint for PC or Mac, and does not include any of the services that come with a Microsoft 365 subscription. One-time purchases don't have an upgrade option, which means if you plan to upgrade to the next major release, you'll have to buy it at full price.
